About the project

The Youth-CARE (Capacity building, Action and Responsibility for the Environment) project represents a collaborative initiative involving five civil society organizations, led by the Beyond Barriers Association in collaboration with TDM2000I, MES, TDO, and ANCE. The primary objective of this project is to increase efforts towards environmental preservation and action, with a particular focus on young individuals living in disadvantaged areas.

This project aims at bringing together trainers, educators, decision- makers in a focused effort to raise capacity and responsibility and undertake action related to the environmental issues.

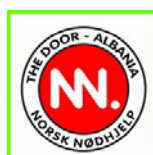

The project evolves around:

- Training educators and youth workers
- Creating a toolkit designated for understanding and analyzing environmental issues.
- Spreading awareness and responsibility in international level.

Recognizing the interconnectedness of global environmental challenges, the project underscores the importance of fostering a sense of collective responsibility among youth. Moreover, it capitalizes on the potential of online and digital platforms to disseminate information, encouraging active engagement and participation in environmental preservation efforts.

Objectives of TOR

Regarding objectives of the project Youth CARE, ANCE is looking to hire an expert to do a case study on: "Understanding the stage of knowledge on environmental problems and climate change of young people of 15- 18 years old living in disadvantaged areas."
